

NHTSA / NEMSIS Version 3 – Requisite National Elements - Demographic DataSet -

The NHTSA / NEMSIS Version 3.4.0 National Subset of data elements for the Demographic (EMS Agency) submission is listed below. A total of 35 elements comprise the Demographic Dataset (DEMDataset). The three elements with a grey background will be submitted by the State Data Collection System to NEMSIS. The 32 remaining elements are specific to the EMS agency based on the licensure granted by the State EMS Office or other licensing authority.

NHTSA / NEMSIS V3 Element Number	NHTSA / NEMSIS V3 Element Name	Obligatory in XML File (Demographic - Agency Record)	Nilable Value Allowed?	Single-Select or Multi-Select Element
			No = submit a “real” value. <i>Mandatory Elements.</i> Yes = NOT values and Nils. <i>Required Elements.</i>	

DEMOGRAPHIC (EMS Agency) REPORT Information Group

- The national elements shown below are submitted from the EMS Agency to the State prior to the first submission of the EMSDataSet (ePCR/Event records). The State Data Collection System will forward this information to the NEMSIS TAC national database.
- This group repeats to allow EMS agency information submitted from a State Data Collection System to the NEMSIS TAC national database to be sent together.

dAgency Information
