

## WHY THE TRANSITION TO NEMESIS V3.5.0?

Regular revisions and updates are necessary to reflect the evolving needs of the broader EMS industry and developing standards for health information exchange.

## WHAT WILL V3.5.0 OFFER?

- More options to accurately describe dispositions
- Less opportunity for data entry errors
- Increased data accuracy
- V3.5.0 charting clearly describes what happened with the Unit, Patient, and Crew including how transport concluded
