

NEMESIS Types of Compliance

What's the difference?

Receive & Process

- Does NOT create ePCR
- State/Regional products
- Receives ePCR XML from Collect & Send software products
- Tested on the ability to receive national NEMESIS data elements
- Tested on the ability to send ePCR and demographic data elements to the national data repository
- Tested on the ability to collect custom elements

Collect & Send

- Creates ePCR
- Field-level products
- Data entry performed by EMS clinicians
- Tested on the ability to collect national NEMESIS data elements
- Tested on the ability to send ePCR and demographic data elements to the Receive & Process product
- Tested on the ability to collect custom elements
