

## Introducing Lightning Rounds

Dear NEMESIS Stakeholder,

I hope this message finds you well. We invite you to participate as a Lightning Rounds Speaker during the NEMESIS Annual Meeting, which will be held on August 26-29, 2025, at Sheraton Park City, Park City, Utah.

Given your expertise in the EMS field, we believe your insights would be incredibly valuable to our attendees. We are particularly interested in having you present a topic related to data collection or utilization that is of interest to the EMS industry. The theme of the meeting is **Robust EMS Connections & Collaboration**. Please share your ideas that align with this theme and help us encourage connections and collaborations.

The format of your presentation will be a 5-10 minute lightning round, designed to provide a concise and impactful overview of your topic. The sessions aim to engage our audience with quick, informative, and thought-provoking presentations. If you are interested in this opportunity, please submit the [speaker sign-up form](#) by Monday, June 30, 2025. We will review all submissions and select several speakers participating in the Data Manager Forum, Software Vendor Forum, ePCR User Group Forum, and General Sessions. Often, the meeting is structured so that the NEMESIS TAC presents information to you. This is an opportunity for us to hear from you.

Please contact the TAC team at Help Desk General Questions if you have any questions or need further information.

Thank you for considering our invitation. We look forward to the possibility of your participation.

Warm regards,  
Annual Meeting Planning Team
