Overview

This report presents highlights of work, collaboration, and initiatives the NEMSIS Technical Assistance Center (TAC) has focused on during the month.

NEMSIS Annual Meeting

NEMSIS Annual Meeting Registration is Now Open

Please join the NEMSIS TAC and EMS stakeholders for the 2025 Annual Meeting, which will take place August 26 - August 29, 2025, in Park City, Utah. The meeting is an opportunity to collaborate, share insights, and continue shaping the future of emergency medical services data documentation and utilization.
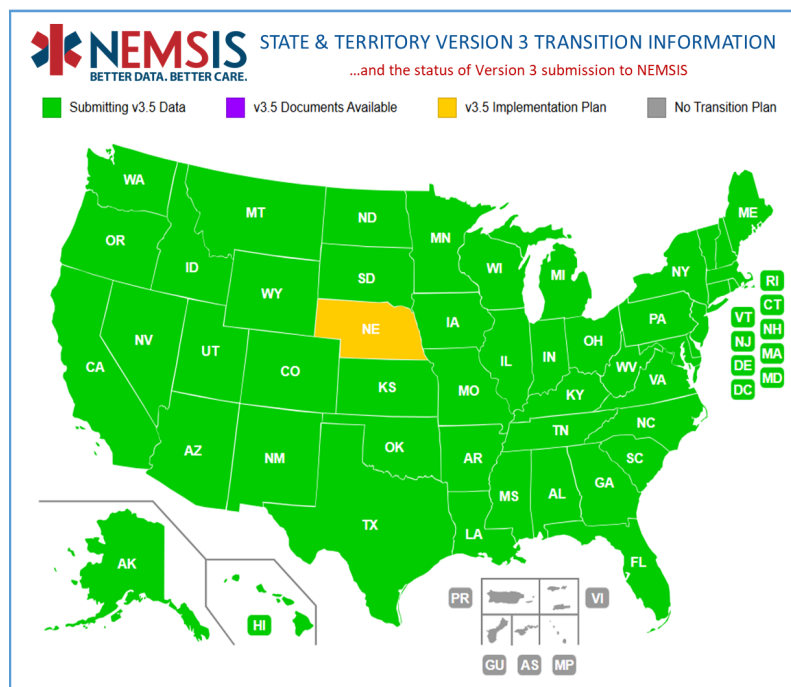

The registration link, invitation letter, draft meeting agenda, and lightning rounds sign-up are all available on the website. The early bird registration fee is currently available.

If you have questions, please Submit a Help Desk Ticket.

NEMSIS ANNUAL MEETING 2025
Robust EMS Connections & Collaborations
AMBULANCE
REGISTRATION IS NOW OPEN

NEMSIS Data Submission Participation

The NEMSIS TAC congratulates all state partners and clinicians for submitting v3.5 ePCR records to the national EMS data repository. The NEMSIS map below shows the progression of states and territories as they transition to the version 3.5 data standard. We congratulate the forty-nine states and the District of Columbia. Access to the interactive map is located on the home page of the NEMSIS website.

NEMSIS BETTER DATA. BETTER CARE.
STATE & TERRITORY VERSION 3 TRANSITION INFORMATION
...and the status of Version 3 submission to NEMSIS

Submitting v3.5 Data ■ v3.5 Documents Available ■ v3.5 Implementation Plan ■ No Transition Plan ■

*Duplicates are removed.

Stakeholder Engagement

v3 Implementation Calls

March 12: v3 Implementation Call
Attendees: 139 (Representatives from 29 States and 31 Vendors)

March 26: v3 Implementation Call
Attendees: 128 (Representatives from 27 States and 34 Vendors)

Upcoming NEMSIS v3 Implementation Calls

v3 Implementation Calls are held on the 2nd and 4th Wednesday of each month from 9:00 – 10:30 AM (MDT)

The next call dates are:
- April 9
- April 23

Link to join: https://utah-health.zoom.us/j/8085088855

NEMSIS Public Training

The NEMSIS Public Training on March 4, 2025, covered the new process for NEMSIS standard change requests, presented by Jennifer Correa, NEMSIS Senior BDA. The intent of the training was to provide participants, which included state/territory data managers and members of the software development community, an overview of the steps for the new change request process and practical examples.
The aim for the presentation was to ensure that everyone can confidently submit and work through new change requests. Additionally, the webinar will explore where to find relevant resources and support on the NEMSIS website.

You can review and share the training using the link New Process for NEMSIS Standard Change Requests.

NEMSIS/ NASEMSO Collaboration

NEMSIS/NASEMSO Agenda Items from the DMC Meeting:

The NEMSIS TAC meets monthly with the NASEMSO Data Managers Council (DMC).
Agenda items included:
- An update regarding the NEMSIS Critical Patch
- Announcement of the NEMSIS Annual Meeting Registration & Financial Assistance Application
- Offering NEMSIS 101 Training for Providers

State Support

The NEMSIS TAC provided one-on-one support via webinars to eight State EMS Data Managers and Directors to discuss data submission, data quality issues, or other concerns.

If you are interested in this type of assistance please submit a Help Desk Ticket found in the footer section of any page on the NEMSIS website.

We are happy to assist you with any questions.

v3 Data Use Agreements

The NEMSIS TAC is diligently working with a few remaining state EMS Data Managers and Directors to execute the NEMSIS v3.5 DUA. In many instances, the DUA process only takes a few weeks.
We encourage you to continue conversations with our team and work with the appropriate officials to complete the execution of the DUA agreements.

The TAC receives assistance from the University of Utah's Office of Sponsored Projects (OSP) and the University of Utah's Privacy Compliance Office to review all legal modifications to the standard DUA. We are committed to working with officials in each state and territory to ensure that the DUA meets the needs of each respective state agency.

Please contact Monet.Iheanacho@hsc.utah.edu to complete the DUA agreements.

Public-Release Research Dataset

The NEMSIS 2024 Public-Release Research Dataset

The NEMSIS 2024 Public-Release Research Dataset is being prepared for public use. While we are preparing the research dataset, we encourage states to continue to submit all 2024 records to the national EMS data repository. Although some records will arrive in the repository after the cutoff date and will not be in the Research Dataset, they are still valuable for updates to dashboards and reports utilized by state officials.

The Public-Release Research Dataset aims to improve understanding of, confidence in, and support for EMS data collection and the analyses that will lead to improved patient care. The timely submission of patient care records to the national EMS database helps policymakers and EMS leadership make informed decisions about resource allocations and other time-sensitive decisions.

The Public-Release Research Dataset is the largest publicly available resource of emergency medical service activations in the United States. We appreciate all EMS clinicians, states, and software vendors for helping us make this resource possible.

The NEMSIS TAC approved and fulfilled 33 datasets in March 2025.

v3.4 and v3.5 Data Submission Summary

The NEMSIS TAC collaborates with State Data Managers and Software Vendors to ensure complete and timely data submissions to the national EMS database. Several States are currently submitting data using both the v3.4 and v3.5 data standards.

The counts listed below represent activity from March 1, 2025, through March 31, 2025.
The information for unique ePCRs is based on Unit Notified By Dispatch Date/Time.

State submissions using the v3.4 standard were 572,441 records from 1,495 agencies.
State submissions using the v3.5 standard were 13,653,737 records from 12,694 agencies.

The reporting dashboards are all currently reflecting v3.4 and v3.5 data together. The national average failed submission rate for v3.4 and v3.5 data submissions is 0.53%.

v3 Software Vendor Compliance

The V3 Compliant Software Testing Status page only reflects v3.5.0 compliant software products. The TAC no longer accepts applications for v3.4.0 compliance and has removed the links for these vendor-compliant products. A list of all NEMSIS-compliant software products and companies seeking compliance can be found on the website.

Okta User Accounts	All NEMSIS user accounts are managed through the Okta service and require dual authentication using your cell phone via the Okta Verify App. All accounts inactive for 60 days are automatically locked.
	If you need to reset your password, use the Forgot Password link located in the footer of the NEMSIS website. If you are unsuccessful with the password reset, wait 30 minutes and try again. If you are still unsuccessful with the reset instructions, submit a Help Desk Ticket and choose General NEMSIS Questions from the options.
	State EMS Data Managers and Software Vendor companies, please notify the TAC when an Okta account needs to be disabled.
