

April 16, 2026

Dear NEMSIS Stakeholders,

You are invited to join us for this year's Annual Meeting as we celebrate **25 Years of NEMSIS: A Legacy of Data, A Future of Care**. We will host the NEMSIS Annual Meeting during the week of October 6 - 9, 2026, in Heber, UT.

This year, we will introduce a new, more interactive format based on feedback from state partners and software vendors. We designed this format to ensure broader participation and engagement. Instead of traditional presentations, you will spend most of your time working in small groups to explore challenges, share perspectives, and develop practical solutions together. These sessions are designed to encourage balanced participation and capture real-time input from across the EMS community.

We intentionally designed this meeting as an **in-person-only event** to create the most effective environment for meaningful dialogue. Your participation will help shape the national discussion on the future of the NEMSIS data standard.

Meeting Overview:

- **Monday, October 5, 2026:** Travel Day and Welcome
- **Tuesday, October 6, 2026:** General Session - Orientation & Identify Key Challenges
- **Wednesday, October 7, 2026:** General Session – Define What's Possible
- **Thursday, October 8, 2026:** General Session – Small Groups Develop & Test Solutions
- **Friday, October 9, 2026:** General Session - Confirm Next Steps & Commitments, Meeting Wrap-Up

Meeting Objectives:

1. **Identify Key Challenges**
Draw on the experience of EMS professionals and stakeholders to surface and define the most critical challenges impacting EMS data and patient care.
2. **Understand System Realities and Constraints**
Develop a grounded understanding of how the EMS data ecosystem functions today and translate that into practical guardrails for feasible solutions.
3. **Design and Test Actionable Solutions**
Collaborate in focused working groups to develop, pressure-test, and refine solution approaches that are realistic and implementable.
4. **Align on Priorities, Ownership, and Next Steps**
Work together to determine which actions will move forward, identify who will carry the work forward, and define immediate next steps to ensure continued progress beyond the meeting

The [NEMSIS Annual Meeting in-person registration](#) fee is \$600, which includes meeting sessions, meals except dinner, and a group activity fee. A limited number of scholarships are available for state EMS managers. Applications will be accessible in late May, and notifications will be sent in June. Information regarding the hotel is listed below.

We would love to see you in attendance.

Sincerely,

Newell Clay Mann

N. Clay Mann, PhD, MS, MBA
Professor and Principal Investigator of NEMSIS Technical Assistance Center
University of Utah, School of Medicine, Dept. of Pediatrics
